## PROJECTS

- My Clinic App** [click to Open](#)  
A MERN fullstack CRUD application I made for the dental clinic I work part-time at. It allows us to store patients' data in an organized database, allows searching patients using various criteria and filters, and exports data to a CSV file.
- Personal Bookshelf** [click to Open](#)  
Allows users to search books using Open Library API. also users can save their favourite books in a personal bookshelf.

## WEB EXTENSION

- Webpage Doodler** [click to Open](#)  
Webpage Doodler is a Chrome extension that allows users to draw and doodle on web pages directly within their browser. With this extension, users can express their creativity, annotate web content, or simply have fun drawing on any webpage they visit.

## MINI PROJECTS

- TrackasyouSpend** [click to Open](#)  
It is a site that allows users to track their money as they spend it. Very helpful in tracking and saving money.
- SignScraper** [click to open](#)  
SignScraper is a site that allows users to sign their signature on a canvas. You can download that sign with its background removed, hence the name SignScraper.
- Technologies Used in Above Projects**  
React, Node.js, Express, JavaScript, HTML, CSS.

## EXTRA CURRICULAR

- Participated in multiple inter-collegiate festivals and won various prizes in quizzes, cricket, and treasure hunts.

## HOBBIES

- Current affairs, International Relations
- Loves cinema and music

## LANGUAGES

English, Marathi, Hindi
